

# Application Library

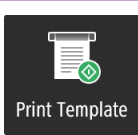

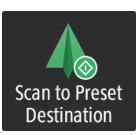

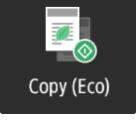

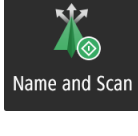

APPLICATION  
LIBRARY

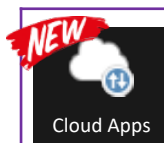

## SCENARIO

- Do you have presets or buttons that you use frequently?
- Do you want to get more functionality out of your device's screen?

### Convenient and productive workflows.

Users can conveniently place customized buttons on the home page of the device.  
See options below:

 Print Template	<b>&lt;Print Template&gt;</b> Enables you to upload and store your own frequently used Print Templates as a button on your home screen.	 Application Library Guide	<b>&lt;Application Library Guide&gt;</b> Conveniently access a description of Application Library from a button on your home screen.
 Standby Slide	<b>&lt;Standby Slide&gt;</b> This can be used for such purposes as creating a branded screen saver with a company logo, contact information, or even advertisement.	 Scan to Preset Destination	<b>&lt;Scan To Preset Destination&gt;</b> Enables you to create preset scan destination (scan to E-mail, Folder, i-Fax) as a button on your home screen.
 Fax and Store	<b>&lt;Fax and Store&gt;</b> When sending a fax, save the copy of the sent manuscript in the specified location. (Storage destination: Email/SMB/FTP/FAX/IFAX)	 ID Card Copy (Simple)	<b>&lt;ID Card Copy (Simple)&gt;</b> Enables you to create specific ID Card Copy settings as a button on your home screen.
 Copy (Enhance Text)	<b>&lt;Copy (Enhance Text)&gt;</b> Can be used when copying light-density text such as forms, carbon paper and handwritten text.	 Consumables Information	<b>&lt;Consumables Information&gt;</b> Conveniently view your consumables information with a button on your home screen.
 Language	<b>&lt;Language&gt;</b> Switch display language of screen on one touch.	 Copy (Eco)	<b>&lt;Copy (Eco)&gt;</b> Save toner and paper by creating specific Copy (Eco) settings as a button on your home screen.
 Name and Scan	<b>&lt;Name and Scan&gt;</b> Add an arbitrary character string and scanned date and time to the file name and save it. Distribute folders according to file name.	 Copy (BleedReduce)	<b>&lt;Copy (BleedReduce)&gt;</b> Limit bleeding of back images on standard and thin media by creating specific Copy (BleedReduce) settings as a button on your home screen.

### **<Cloud Apps>\***

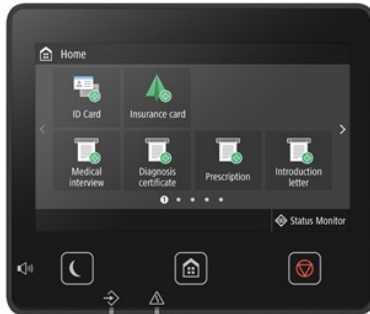

Print or Scan from Dropbox, Google Drive or OneDrive with preset buttons on your home screen.

**Note:** Application Library supported models: imageCLASS X MF1127C, LBP1127C, MF1238 II, LBP1238 II, MF1643iF II, MF1643i II.

\* Only available on imageCLASS X MF1238 II, LBP1238 II, MF1643iF II, and MF1643i II.

# CUSTOMIZATION IDEAS

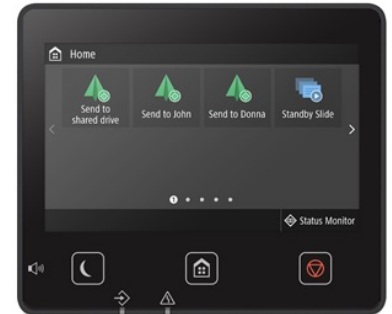

## For Medical

## For Retail

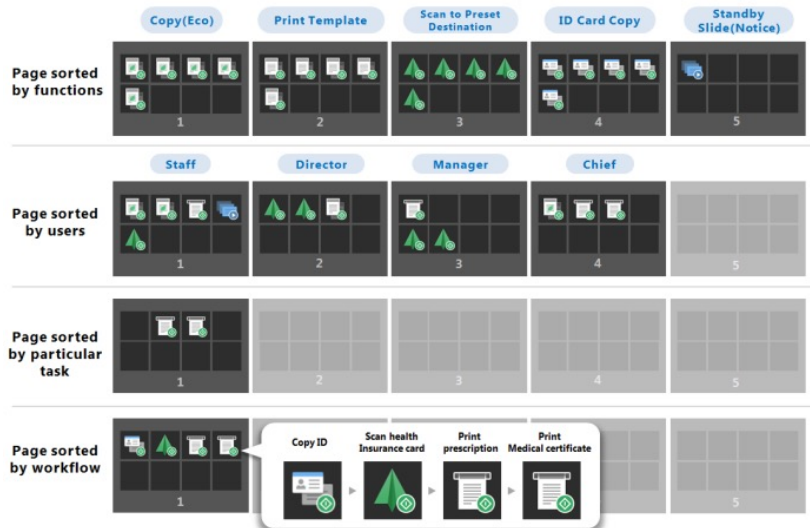

## For Office

These are some possible vertical use cases based on different types of businesses and workflows.

The Home Screen can be arranged in many ways (some examples are shown to the right) to accommodate your own business needs.

## Application Management

Last Updated: 09/29/2021 (

When enabling an application, its button will not be displayed on the Home screen if there is no space available for registration.

Storage Space Available:

433 MB

Application Name	Version	Total Size	Status	Operation
Print Template	0405	6.69 MB	Enabled <input type="button" value="Disable"/>	<input type="button" value="Initialize"/>
Standby Slide	0205	12.0 MB	Enabled <input type="button" value="Disable"/>	<input type="button" value="Initialize"/>
Application Library Guide	0405	12.0 MB	Enabled <input type="button" value="Disable"/>	<input type="button" value="Initialize"/>
Fax and Store	0104	6.43 MB	Enabled <input type="button" value="Disable"/>	<input type="button" value="Initialize"/>
Copy (Enhance Text)	0205	6.50 MB	Enabled <input type="button" value="Disable"/>	<input type="button" value="Initialize"/>
